Qorvo Broadband Solutions

00:00:03.080 --> 00:00:08.280
All around you, Qorvo is enabling a
new age of broadband communications,

00:00:08.480 --> 00:00:12.960
innovating broadband infrastructure
equipment technologies to provide

00:00:12.960 --> 00:00:17.400
wired and wireless connections for backhaul
delivery of IoT and 5G communications.

00:00:17.400 --> 00:00:21.800
At Qorvo's Nuremberg
manufacturing facility,

00:00:21.840 --> 00:00:25.640
we are pioneering technology,
packaging and products

00:00:25.640 --> 00:00:29.200
that improve broadband
network performance and reliability.

00:00:29.440 --> 00:00:33.920
We manufacture the world's
leading CATV hybrid module.

00:00:34.120 --> 00:00:38.320
We have a tremendous portfolio of products
that we offer to our customers.

00:00:38.320 --> 00:00:43.400
That makes it very easy for our customer pick the
perfect product for their application requirements.

00:00:43.920 --> 00:00:47.880
Delivering the highest level of design
and manufacturing services

00:00:47.880 --> 00:00:51.600
from the industry's most
experienced operators and engineers.

00:00:52.000 --> 00:01:00.360
We have more than 20 years of experience in the
design and manufacturing of CATV broadband amplifiers.

00:01:01.560 --> 00:01:04.800
Simplifying and consolidating
manufacturing steps

00:01:04.800 --> 00:01:09.880
to bring products to market with speed,
confidence, quality and reliability.

00:01:10.160 --> 00:01:15.920
We use very highly automated
assembly lines designed to manufacture

00:01:15.920 --> 00:01:19.760
this product with as
little manual work as possible.

00:01:19.920 --> 00:01:23.000
This includes state of
the art processes

00:01:23.000 --> 00:01:27.680
for assembly, trimming and
tuning, as well as test.

00:01:27.680 --> 00:01:31.320
Very consistent product quality with very,
very little failure rates.

00:01:31.640 --> 00:01:34.520
Transforming a new generation of cable
services based on the latest DOCSIS technology,

00:01:34.520 --> 00:01:38.960
so that cable operators can control
their networks with exciting new services

00:01:38.960 --> 00:01:43.000
Powered by Qorvo multi chip modules,
low power mimics, control products

00:01:43.000 --> 00:01:51.720
and other solutions for fiber to the home
RF over glass, head end and node applications.

00:01:51.880 --> 00:01:53.680
It's very exciting to see that the cable
industry is still developing into new technologies

00:01:53.680 --> 00:02:01.320
and how we are part of that development,
enabling new application for our customers.

QORVO

00:02:02.080 --> 00:02:05.920
Qorvo is delivering
a connected world all around you.
